JOB DESCRIPTION

- There is a web development framework used inside the Pan-Pacific group. Through that framework, we develop a fashion OEM internal system. There are 370 employees at headquarters in Korea, 420 employees at Hanoi office, 14 IT team employees in Korea, and 9 IT team employees in Vietnam. IT team members are collaborating with each other. And overseas factories have about 30,000 employees working in Indonesia, Myanmar, and Vietnam. The above employees are working through the program we developed, and they use the computers in the office and Android in the factory.
- **Why You'll Love Working Here**
- Good career path development. Competitive & attractive salary based on candidates qualifications.
- Opportunity to work for one of the biggest apparel vendors in the world.
- 12 annual leave days, and public holidays according to Vietnamese Labor Law.
- Young and dynamic environment. Helping you purchase online courses or books for development. Opportunities to work directly with Korean, Indonesian, and Myanmar partners. Opportunities to learn skills to become a full-stack developer. Opportunities to improve development skills and English skills.

REQUESTMENT

- MINIMUM QUALIFICATIONS
1/ At least 2 years of experience in the JavaScript language
2/ SQL experience (Select, Update, Delete, Insert, Management Table)
- We use Oracle DB, but if you have experience using other DBs, there is no problem in submitting your resume.
3/ Bachelor's Degree in Computer Science or a related field.
- PREFERRED QUALIFICATIONS
1/ English communication skills (basic)
